PROFILE

I'm a Brazilian self taught full stack web developer and entrepreneur.

Graduated from Columbia University Boot Camp in 2020 and founded my own company in Brazil where I'm responsible to oversee a team of developers and also explore innovative solutions for our clients from medium to large organizations in Brazil.

I recently moved to NYC, a city which I'm very familiar with it and I'm looking into opportunities in the tech industry to contribute and further develop my skills.

EMPLOYMENT HISTORY

Integration Developer, Growvix, Lisbon

JANUARY 2022 – JUNE 2022

Created integrations for a software that was begin developed by the company, also helped on the development of the software it self. My biggest achievement was the development of the first version API and WebHook service.

Co-Founder and CTO, Upscale, Balneario Camburio

JULY 2021 – PRESENT

I Co-Founded and structured the processes of the company with is specialized in development and sale of monthly recurring revenue software. Our main product is an powerful form builder that helps you with lead generation.
