New York, New York

Summary

Hi, my name is Caio (his/him) I was born in the South of Brazil and despite the beautiful beaches and amazing weather I ended up in NYC. Since I can remember I have always been fascinated with the tech world. As a child I was interested in logical puzzles as Rubik and others, I used to mount and dismount toys to check how it was built, with 14yo I started to learn CSS/ HTML through You tube videos, with 15yo I put together my own desktop gaming computer.

I consider myself an explorer, whether at work or in my personal life - At work I love the idea to be constantly learning new languages of coding and appreciate the fact as a full stack developer we have the opportunity to work in various types of projects. In my personal life, I'm a solo explorer! Have visited many countries by myself and had opportunity to live in Brazil and now in the USA. My hobbies are a reflect of my personality, I'm an non-stop reader, you can find me jamming some blues and jazz on my electric guitar, drums or bass, sometimes even producing some cool sounds on garage band!

Education

Columbia University

Coding BootCamp • New York, New York   07/2020
